

Project Narrative

We are asking to be able to use our residential house for office space. We have 15 acres on this parcel and will only be using the front. We need places to park our non-emergency vans and 2-3 Non Emergency ambulances. **We do not use any lights and sirens at all.** We do hospital transfers for Advent and Halifax on a daily basis. We are a small business that depends on income from this, as well as our drivers. We are not allowed to park the vehicles at drivers home. We have 15 families that depend on us and live in this county. This would have a terrible impact on both Advent Hospitals and Skilled Nursing facilities as we move patients daily.

This office is only used as a place to leave driver vehicles and transport vans-Ambulance. We do have one room where we can answer the phones set up.

The drivers simply leave their vehicle and then take a work vehicle with them for the day. We only have 1-2 vehicles that are moving around after 6-7 pm at night. The majority of switching of vehicles happens between 8 am-6pm

If this request is not granted, patients will not be able to be moved in Flagler County from hospital to facility. We also go to each facility if requested by Flagler County Fire Dept to transport patients that are not true emergencies. The movement of patients from hospital to facility or home is critical for hospitals to function and patients to get appropriate care in Flagler County We also move Hospice patients from their home to Hospice Care Center in Flagler County . Please understand the nature of our business and the fact that the hospitals and skilled nursing as well as hospice depend on us daily.

We are not selling our property, we are going to have a new management company working with us in the next 30 days. We are still owning the property and will be there most days.

I really appreciate anything you guys do to help us continue to provide a service that is greatly needed for Flagler County.
